Nimbus T9 - The brand new 9 meter Tender model of the new Nimbus WTC series

The Nimbus T9 is the first of three models of the brand-new Nimbus Tender series. As a new interpretation of the popular Nova boats, lots of ideas were taken into consideration and translated into modern design thinking, when the boat was designed. The boat wants to be used as a dayboat which is usable for all kind of social activities or Watersports.

Nimbus C9 - The third in the new nine-meter Nimbus series

The C9 prioritises spaciousness, surfaces and functionality to provide the best possible onboard load capacity and freedom of movement. The result is easily accessible stowage, wide gangways, extra-large sliding doors and passages through which two people can pass in comfort. The Nimbus C9 is a boat for connoisseurs of contemporary Scandinavian design; those who appreciate well-thought-out solutions and smart functionality.

Reinventing the daysailer: SARCH S6. Spanish temperament under sails.

The Sarch S6 is a daysailer reminiscent of its big brother - the internationally recognized SARCH S7. The pronounced chines, the negative stem and the spacious cockpit as well as their high performance are convincing in both boats. The SARCH S6 has been designed in favor of the ease and simplicity without the interior of a cruiser.
